1 IMMEDIATE CARE

After delivery make sure you water your plant until the soil is moist then check over the plant to make sure it is in good condition.

POSITION 2

- **Soil:** Any soil type as long as it is well drained
- **Position:** Full or partial sun
- **Planting:** These can be grown in the ground, container or hanging pots

3 PLANTING

It is important that you remove the plant from its nursery pot, so plant in a container or in the ground as soon as possible.

ESTABLISHING 4

Water the plants in small amounts regularly until established. The soil should be moist at all times, we recommend watering close to the base to ensure the roots are getting the needed water.

5 CARING

- Support with a cane when needed
- Remove bottom side shoots in spring
- Deadhead regularly
- If potted, feed regularly with high potash liquid plant food during summer
