1 IMMEDIATE CARE

After delivery make sure you water your plant until the soil is moist then check over the plant to make sure it is in good condition.

POSITION 2

- **Soil:** Moist, well drained soil
- **Position:** Sunny, sheltered area
- **Compost/Soil Type:** For pots use a loam-based, peat-free compost

3 PLANTING

It is important that you remove the plant from its nursery pot, so plant in a container or in the ground as soon as possible.

ESTABLISHING 4

Water the plants in small amounts regularly until established. The soil should be moist at all times, we recommend watering close to the base to ensure the roots are getting the needed water.

5 CARING

- Use a slow-release high potash formula feed every spring.
- Mulch in autumn
- Cut back stems to 10cm above ground level and they will regrow in the following spring
