

PATIO ROSE TREE

For more in-depth information please visit
www.help.gardeningexpress.co.uk

1 IMMEDIATE CARE

After delivery make sure you water your plant until the soil is moist then check over the plant to make sure it is in good condition.

POSITION 2

- **Soil:** Well drained Rose compost (we recommend Compost King - Shrub, Tree & Rose Compost)
- **Location:** Place the container in a location that has plenty of sun and some light shade

3 PLANTING

It is important that you remove the plant from its nursery pot, so plant in a container as soon as possible.

ESTABLISHING 4

Water lightly until the soil is moist, especially during spring and summer. We recommend watering in the early morning or evening.

5 CARING

- Apply liquid rose fertiliser every 4-6 weeks
- Deadhead when needed
- Winter: when in dormant state store container in garage to protect from frost, if too large to move add lots of mulch on the surface and shelter as much as possible
