## 1 IMMEDIATE CARE

After delivery make sure you water your plant until the soil is moist then check over the plant to make sure it is in best condition.

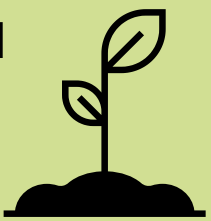

## POSITION 2

- **Soil Conditions:** Hydrangeas love moist clay soil
- **Light:** Mix of sun light and shade
- **PH Levels:** Blue 5.5 or lower, Pink 6.5 or higher, Purple between 5.5 and 6.5

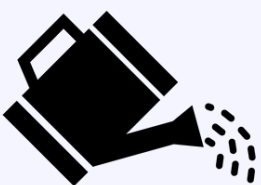

## 3 PLANTING

It is important that you remove the plant from its nursery pot, so plant in a container or in the ground as soon as possible.

## ESTABLISHING 4

Water the plants in small amounts regularly for the first three weeks. The soil should only be moist at all times, we recommend watering close to the base of the plant instead of at the top.

## 5 CARING

- Regular pruning
- Add hydrangea feeds to support your plants growth. Make sure to follow product instructions for plant feed as each variety is different.
